Memory Care
Homes?**

**Ask Us
TODAY!**

It feels like a home. It is a home.

At Family Partners Home, it is our mission to significantly reduce the stress of caring for a loved one with memory impairment, and to provide care solutions that help seniors prolong independence.

Assisted Living Homes

Our assisted living homes are in residential neighborhoods and offer all of the comforts of a single-family home, designed and built specifically for persons with dementia. Residents enjoy:

- Private bedrooms
- Homestyle prepared meals
- A low, 12–13 person residency
- Enhanced safety of around-the-clock professional care
- Best staff to resident ratio – Avg 1:5 (compared to state standard of 1:15)
- Focus on each individual; no one gets “lost in the shuffle”
- House doctor as well as on-site nursing and hospice care when needed to avoid a move

Seniors maintain the familiar feel of home while receiving specialized, personalized care to ensure they feel comfortable. Residents enjoy private and community spaces, activities that fit their dementia care needs, and a family environment.

It feels like a home. It is a home.

A Unique Approach to Dementia Care

I made a promise to my wife many, many years ago that I would never place her in a nursing home. When I discovered Family Partners Home, there was no doubt in my mind that this was the right environment for my wife.

— Vaughn B.

My husband and I had previous experience with his mother residing in a large scale community and I was determined to find a better solution for my mother. At Family Partners Home my mother receives wonderful care from a tight knit team of professionals that understands her individual needs and desires.

— Paula R., Daughter of Resident

You all make John happy, comfortable and cared for. You treat him as a much-loved family member.

— Kathy G.
